PARENTAL CONTROLS

Lock shows by rating, or lock specific channels and/or shows, including both live and recorded programs. You'll set a 4-digit PIN which can then be used to unlock programs as needed.

1. In the Settings category, scroll to the Parental Controls card, and press OK.
2. Choose settings. You'll be taken to the Parental Controls menu. Use the arrow to choose either TV Ratings, Movie Ratings or Lock By Channel.
3. Each card contains a list of the rating systems or a list of channels. Scroll to the format or channel you want to control. Lock the rating or channel by choosing it, and then pressing OK on the remote.

When you lock a rating, all ratings for more restrictive content are also locked. For example, if you lock the TVPG rating, then the TV14 & TVMA ratings are also locked automatically, because these ratings are for more mature audiences than TVPG. When unlocking, the reverse is also true.

MENU CUSTOMIZATION

The Menu Customization feature allows you to configure your main menu and choose how TV Channels display. You can toggle on and off some of the categories that appear in your main menu and choose whether the TV channels sort in ascending menu up the vertical list or descending menu down the list.

RECORDING DEFAULTS

In Recording Defaults, you can set your preferences for the following settings, which will then be applied each time you record a show:

- **KEEP**

- **EPISODE LIMIT**

- **ACCEPT**
